1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-36 are rejected under 35 U.S.C. 102(b) as being anticipated by Papacek. See Figure 7 of Papacek for a "backflow preventer".

3. Applicant's election with traverse of the invention of Group I in the reply filed on 27 October 2004 is acknowledged. The traversal is on the ground(s) that examination of all claims can be made without burden. This is not found persuasive because the subcombination of Group II has a much, much wider field of search than the combination of Group I.

The requirement is still deemed proper and is therefore made FINAL.

4. Claim 37 is withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention. Applicant timely traversed the restriction (election) requirement in the reply filed on 27 October 2004.
